#### MERELYFIGHTING FOR TERMS

Washington, May 6 .- The officials of the State and War Departments are looking for a speedy collapse of the insurrection in the Philippines. Not only is this expectation based on private advices that have come from the Philip pine commission as to the negotiations that have been going on beween that body and the insurgent representatives, but also upon the successful development of Mac-Arthur's and Lawton's campaigns.

So far as the commission's reports are concerned, they indicate hat the insurgents have at last recognized the inevitable breakdown of their struggle, and are simply striving, by protracting their resistance, to secure the most iberal terms possible in the erection of a government in the Philippines. They have not in any diplomatic sense acknowledged the sovereignty of the United States, but have recognized the physical domination of our military forces, and while they have talked more or less of independence even at the last moment, without doubt they will accept readily any proposition looking to a protectorate.

The President's instructions, however, are clear on this point, and the commission understands that it is to take no action in a way of making promises that will deprive Congress of a free had in disposing of the future of the Philippines.
